

myLink™

Motorization Control

myLink™ offers convenient control of Radio Technology Somfy® (RTS) motorized solution with a smartphone, tablet or with your own voice. It consists of a simple plug-in device and free app that can be downloaded through App Store or Google Play.

FEATURES

- Remote Access to all RTS products paired with myLink
- Plugs directly into a standard wall outlet and connects to Wi-Fi
- Downloadable on iOS and Android devices
- Intuitive on-screen Setup Wizard
- Voice command via Amazon Alexa
- Control up to 16 channels of motorized window coverings either individually or in groups
- Automate window coverings with scenes and schedules
- Multiple myLinks can be joined within the same system for multi-zone control
- Integration with third-party systems over IP

myLink™ is a registered trademark of Somfy.

TECHNICAL SPECIFICATION

- Voltage **120V AC; 50-60Hz**
- Wi-Fi Requirements **Ultra Low Power Wi-Fi (802.11 a/b/g/n)**
- Dimensions **3.64" L x 2.35" W x 1.95" H**
- Radio Frequency **RTS: 433.42 MHz, Wi-Fi: 2.4 & 5GH**
- iOS Requirements **Version 7 and higher**
- Android Requirements **Version Jelly Bean and higher**

NOTE

Before installing the myLink, make sure that the RTS system is fully operational with all motor limits set and a programmed RTS transmitter. Plan to install one myLink per zone. Actual specification and radio frequency (RF) range will vary depending on number of RTS channels and environmental conditions (building materials, RF interference, etc.).

The diagram shown below is meant for illustrative purposes to show the connections from product to product. This device could be used in other configurations than shown below.
