

# BEADS

ShimmerScreen® has over 100 styles, sizes, finishes and colors to create thousands of design possibilities. You can choose from numerous high-sheen faceted style beads to the rich matte finish of medieval brass beads. We can match almost any color your design requires with our custom powder coated finishes. You have ideas, we have options. Let's create something new!

## FINISHES

### Nickel Plated Steel or Brass

This highly polished silver finish displays an elegant uniform sheen. Available over steel or brass.

### Brass Plated Steel

The traditional gold tones of these beads add a lush warm feel to any environment.

### Aluminum

Light weight aluminum beads add versatility and durability, especially when exposed to moist conditions.

### Stainless Steel

With a clean silver cast, these beads are exceptionally durable indoors or out. A good option for salons, spas and outdoor use.

### Yellow Brass

The richness of solid brass and gold tones create a luxurious setting for residential or commercial use.

### Antique Brown

With an antique feel and earthy tones, the muted sheen and warmth can complement any setting.

### Medieval Brass

These antique brass plated beads make a bold statement with its raw surface and deep brown color.

### Dungeon

The wrought iron feel of its antique zinc plate adds visual muscle and weight to any environment.

### Mystic Red

An organic rust-red patina shows strength and elegance for an interior that needs design versatility.

### Gun Metal

Industrial chic with timeless appeal. This rich metallic finish can lend a modern aesthetic when needed.
