

# TRACKS

ShimmerScreen® manufactures the perfect track systems for custom projects including: beaded curtains, room dividers, space partitions, trade show displays, wall coverings, lighting treatments, window treatments, and many more.

With the proper tracks you can combine bead styles to create linear patterns with complementary textures.

Every ShimmerScreen application has a track style that precisely fit its individual requirements.

Tracks can be custom made to a wide range of shapes to satisfy unique design visions.

Double tracks can be used to create new layering effects that add density and distinction.

## Getting Started

At ShimmerScreen, every project is customized to your design needs.

To begin the process, let us know the width and height of the screen(s) you require. For more complex designs and those including curved tracks, we can review a drawing or CAD files to work out the dimensions. We will also need to know the bead diameter, finish, and style you want to use. If you are unsure, that is not a problem. We will be happy to discuss the different options with you or send samples for your review.

Simply insert the last bead of each strand into the supplied track. The track profile varies based on the diameter of the bead.

---

### Single Track

#### ST-1

USE FOR 3/16" AND 1/4"  
DIAMETER BEADS

#### ST-2

USE FOR 5/16" AND 3/8"  
DIAMETER BEADS

#### ST-2 (WITH FLANGE)

USE FOR 5/16", 3/8", AND  
1/2" DIAMETER BEADS

#### ST-3

USE FOR 1/2" AND 5/8"  
DIAMETER BEADS

---

### Double Track

#### DT-1

USE FOR 3/16" AND 1/4"  
DIAMETER BEADS

### Wall Mounted Track

#### WT-1

USE FOR 3/16" AND 1/4"  
DIAMETER BEADS

### Curved Track

ShimmerScreen tracks can be custom-curved to your specifications. You can create arcs, arches, circles, "S" curves and more. We are happy to review your CAD file or template to help make your vision become a reality.

ShimmerScreen can weigh between 1.5 and 4 lbs per square foot depending on the diameter and material. Suitable support must be in place prior to installation, please contact us if you want to confirm the weight of your ShimmerScreen project.
