

Faux Woods FR

Wood Blinds

Our Faux Woods FR are a beautiful choice for hospitality applications. Designed for demanding performance requirements, these blinds offer great design at a cost-effective price. Ideally suited for areas with high humidity and temperatures.

FEATURES

- FR Blinds create a natural look that's attractive and extraordinarily durable
- Blend of polymer and composite materials resists moisture and will not warp or peel
- Available in 2" & 2 1/2" slat size (see specifications below)
- Slat are fire retardant and pass NFPA 701
- Standard cord tilt and lift for smooth operation and long-life performance
- Includes a 3" valance with an easy magnetic installation

OPERATING SYSTEM

2" Slats **Cord Tilt (Standard)**
Wand Tilt and Motorized
— Available upon request

2.5" Slats **Cord Tilt (Standard)**
Motorized Available
— Available upon request

VALANCE

3" Contoured
(Standard)

3.25" Crown
(Available upon request)

Note: Blinds that measure 12" - 17 7/8" must have split control. Blinds that measure 7" - 12" require center tilt only

OPTIONS

- Two-on-One — Standard rectangular shades share the same headrail but operate independently; perfect for extra-wide windows
— Controls must be: Left Blind — Left/Left, Right Blind — Right/Right
- Cut-outs on all slat sizes

CARE AND CLEANING

Regular cleaning with feather duster or soft, clean cloth is suggested. Blinds may also be cleaned using a hand-held vacuum with a brush attachment on low suction.

Note: Faux Woods FR are not intended for use with other window coverings (cornices, roller shades, drapery), which will trap heat between the blind and window resulting in slat warping over time.

Certain wood stain blinds are specifically manufactured with dark braided ladder. Instances of dye transference from ladder to slat have occurred and are not considered to be a defect or warranty issue.
