

Shutters FR

KEY FEATURES

- Available in three louver sizes; 2½", 3½", 4½"
- UltraSatin™ finish available in 3 colors
- Guaranteed to not fade, crack, chip, peel or warp
- Hollow design provides the best insulation barrier
- Lightweight construction outperforms heavier products
- Hidden panel lock secures shutters in uniform, closed position, eliminating unsightly magnet
- Microbial & fungal resistant; great for high moisture areas
- Child safe design proposes no choking hazard
- Passes NFPA 701 flammability testing
- GREENGUARD Gold Certified

Standard Hinge System

Opens and/or folds left or right. Accommodates window openings from 6"-144" wide, and 16"-120" high.

UV Stability Test (#Rd11151-95): **500, 1000 and 1500 hours:**

All samples performed well within the minimal degradation.

ROTATION SYSTEMS

Tilt-Bar

Provides a tight and uniform closure of all louvers at once by using a bar located on the front center of each panel.

Tilt-Bar Detail

UltraClearview™

Performs the same function as a Tilt-Bar System but the bar is hidden on the back hinge side of the panel.

UltraClearview™ Detail

UltraClose™

Hidden gear system that reduces depth requirements and allows one touch control to open and close the shutters.
