USER MODE

Adjusting the Limits in User Mode
Lower Limits

Step 1:
Press DOWN to send the window covering to its current LOWER Limit.

Step 2:
Press and hold both UP and DOWN simultaneously until the window covering jogs. Adjust to a new LOWER limit position.

Step 3:
Press and hold STOP/MY until the window covering jogs, to confirm new limit.

Upper Limits

Step 1:
Press UP to send the window covering to its current UPPER Limit.

Step 2:
Press and hold both UP and DOWN simultaneously until the window covering jogs. Adjust to a new UPPER limit position.

Step 3:
Press and hold STOP/MY until the window covering jogs, to confirm new limit.

Setting Intermediate Preferred "MY" Position

Step 1:
Press the UP or DOWN to operate window covering. At the desired intermediate "my" position press STOP/MY briefly to stop the window covering.

Step 2:
Once the desired "my" position is reached, press and hold STOP/MY until the window covering jogs. The "my" position is now added to memory.

Activating the "MY" Position

Send the window covering to the "my" position by pressing STOP/MY from ANY window covering position.

Window covering should be stationary prior to activating "my" position function. If window covering is actively moving (in-motion) STOP/MY should be pressed twice.

Deleting "MY" Position

Activate window covering to intermediate position, then press and hold STOP/MY for 5 seconds. Window covering will jog to confirm deletion of "my" position.

Adding, Deleting, Copy/Paste a Transmitter
Start with the Programmed Transmitter

Step 1:
Using an already programmed transmitter with the desired programming, select the transmitter (single channel) or the channel (1-5 of a multi-channel transmitter, or the sensor).
Step 1 should not be performed with the transmitter intended for deletion.

Step 2:
Using a paper clip, press and hold the PROGRAMMING BUTTON of that transmitter until the window covering jogs.

Step 3:
Select the transmitter (single channel) or the channel, (1-5 of a multi-channel transmitter, or the sensor) to be added, deleted or copied/pasted.

Step 4:
Using a paper clip, press and hold the PROGRAMMING BUTTON of that transmitter or sensor until the window covering jogs.

DEACTIVATE RTS MOTOR IN USER MODE

Step 1:
Press and hold the PROGRAMMING BUTTON on the previously programmed transmitter or motor head until the shade jogs. The motor is now in PROGRAMMING MODE.

Step 2:
Press and hold both the UP and DOWN buttons simultaneously until the window covering jogs once.
