| U  | Rated for Upholstery       |
| V  | Valances                   |

#### PRODUCT EXCEPTION CODES

|    |                                                                                                                                                          |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1  | Random textures/slubs will not be pattern matched.                                                                                                       |
| 2  | Vertical stripes will be cut on the bias on swags and therefore run diagonally. Vertical stripes on pleated products may not evenly appear along pleats. |
| 3  | Patterns best suited for shades less than 51" wide.                                                                                                      |
| 4  | Pattern will be slightly hidden by the folds of the Hobbled, Front Fold and Reverse Fold Roman Shades.                                                   |
| 6  | Fabric not suitable for banding or trim.                                                                                                                 |
| 7  | Tissue pick fabrics have yarns found along the back of the fabric that can potentially be seen through the lining of window treatments.                  |
| 8  | Fabric not suitable for blackout lining or interlining.                                                                                                  |
| 9  | Fabric not suitable for Hobbled, Front Fold, and Reverse Fold Roman Shades.                                                                              |
| 10 | Soft Shades - only available for Soft Roman and Slouch Shade.                                                                                            |
| 11 | When Soft Shades are in the "up" position, folds will not lay crisp if vertical tape trim is applied.                                                    |
| 12 | Fabric not suitable for Ripplefold Draperies.                                                                                                            |
| 13 | Fabric not suitable for Hydra lining.                                                                                                                    |
| 15 | Fabric not suitable for Grommet Draperies.                                                                                                               |
| 16 | Fabric not suitable for Euro hem.                                                                                                                        |
